EXPERIENCE

Research Associate at GOOGLE-DEEPMIND June 2024 - Present

- Efficient and Elastic ML.
- Image/Video Generation, Foundational models.
- Working on **VEO** and **Gemini**.

AI Internship at ADOBE-RESEARCH May 2023 - July 2023

- A Novel **self-supervised** approach to evaluate Graphic Designs quantitatively (Grammarly for Graphic Designs).
- Used **Siamese** networks along with Design Heuristics to score Graphic Designs.
- Modified advanced **Genetic Algorithms** (NSGA-II) for **Layout optimization**.
- Achieved **95.1%** accuracy using **GroupNorm**.
- Deployed the entire system as a Flask Web Application with potential integration into **Adobe Express**.
- Worked under the supervision of **Dr. Joseph KJ** and **Dr. Balaji Vasani Srinivasan**.

AI Research Internship at MIDAS-IIITD September 2021 - January 2023

- A novel **CNN-based talking face generation** network involving **lipsync** and explicit **emotions**.
- New skip-connections-based concatenation technique to concatenate video, audio, and emotion embeddings.
- SOTA results on **CREMA-D** dataset (**83.2%** emotion classification accuracy and **FID** metric: **5.29**).
- Deployed the entire system as an interactive web interface.
- Worked under the supervision of **Dr. Rajiv Ratn Shah**.

Machine Learning Internship at PANDO March 2021

- Optimized a heuristic algorithm (3-D loading space optimization for transport).
- Used **vectorized operations** and **parallel computing** (**Numpy** and **PyTorch**).
- Reduced the algorithm's running time by **95 %** on real-world data.

PROJECTS B.C. (BEFORE CHATGPT)

Model Extraction Attacks for Video Classification [Code] Feb 2022 - March 2022

- **Model extraction** on video-based models (Swin-T and MoViNet-A2-Base) in the black box and grey box settings.
- Used **Knowledge Distillation**-based technique on **Kinetics** dataset.
- Utilized Data Free Model Extraction framework, synthetic data, image stacking, and data augmentation.

Global-Wheat-Detection-2021-Challenge [Code] June 2021 - July 2021

- Performed detailed **EDA** on wheat images acquired from different continents.
- Experimented **Faster RCNN** with different **ResNet** and ResNext backbones for **wheat-head detection**.
- Utilized Data augmentation, Non-Maximum Suppression, Weighted boxes fusion, and Pseudo Labeling.
- Achieved **56.2%** Average Domain Accuracy.

BicycleGAN [Code] [Blog] Dec 2020

- Used BicycleGAN for 2 tasks: **Edges to Images** (Edges to Shoes dataset) and **Denoising images** (CIFAR10 dataset).
- A well-written blog on BicycleGAN.
- Achieved **LPIPS** metric of **0.16** (Edges to Images) and **0.33** (Denoising images).

VisualML [Code] [Demo] May 2020 - July 2020

- A set of interactive ML visualization demos (browser-based).
- Contributed to **PCA**, **vanishing gradients**, and **ANN** demos.
- Used TensorFlow.js, Plotly.js, and numeric libraries.
- **110+** stars on GitHub

ACHIEVEMENTS

- **Best Demo Paper** at ACM MM ASIA '22 conference.
- **Department Gold medal** (IIT Roorkee - Applied Mathematics).
- Reviewer at CVPR, ICML, ICLR, ICCV, AAMAS, WACV conferences.
- **Gold medallist** in Inter IIT Tech Meet 2022 (Model extraction task).
- Maximum rating: Expert, **1641** on Codeforces (handle: **sahilgo**)
- **Open Source**: 5 commits to PyTorch-Vision.
- Awarded ACM SigMM student travel grant for ACM MM Asia '22.
- Represented IIT Roorkee in Inter IIT Tech Meet 2021 (NLP task).
- JEE Advance Rank: **1583**

POSITIONS OF RESPONSIBILITIES

- Senior member at **Data Science Group IITR** *January 2020 - May 2024*
 - Lead various ML projects.
 - Discuss various basic as well as advanced research papers.
 - Organize several hackathons for students.
 - Contribute to **open-source** organizations such as **PyTorch**.
- Undergraduate Teaching Assistant of Academic Reinforcement Program *April 2021 - July 2021*
- Member of National Social Service IITR *August 2019 - August 2020*
